
The improvement of Hydal industrial technology parameters in cooperation with BUT

Project name and registration number:

The improvement of industrial technology parameters of Hydal in cooperation with BUT

CZ.01.01,02/0.0/0.0/15_013/005069

Operational programme, areas of assistance, provider:

Operational Programme of Enterprise and Innovation for Competitiveness, Knowledge Transfer Partnership, Ministry of Industry and Trade (OPPIK)

Applicant:

NAFIGATE Corporation

Partner:

Brno University of Technology - Faculty of Chemistry

NAFIGATE Corporation in cooperation with its partner the Brno University of Technology is implementing the project "The improvement of Hydal industrial technology parameters in cooperation with BUT" from 1 August 2016 to 31 July 2018.

Hydal Biotechnology is a strategic project with strong global potential. The aim of the project is to support and accelerate the innovation processes in NAFIGATE Corporation through a knowledge transfer aimed at improving the production processes and at the same time to enable university staff to learn about the processes of the production practices. As a result, the dependence of NAFIGATE Corporation on external entities will be reduced through the acquisition of new - previously missing - knowledge.

The project is co-financed by the European Union.
